

malagaharmonía

MALAGAHARMONÍA is a universe with two pillars, music and education.

Music is the soul - air, *pneuma* - whose seed contributes to a spiritual repopulation of the world.

Education facilitates that seed, as we only really possess that which we deliver, we multiply when we divide (or when we share).

Born in Malaga, it sends out, just like the oak, roots of its own in order to offer its canopy to the air of the world. Juan Ramón Jiménez referred to this circulation between here and there, between land and sky, as a wish:

«may wings take root and roots fly».

CAMERATA

15 MUSICIANS, ONE SOUL

The Malagaharmonía chamber orchestra is a string orchestra born in Málaga in 2020, as the formal crystallization of a long collaborative work process amongst its members.

Recently formed, its biography can be no other than that of each of its components, clustered together by a common goal, that of offering, with the highest level of purity and with a renewed reading, the best pages of musical tradition. If it is possible to reconcile modesty with ambition, the Chamber orchestra aspires also to give life to a specifically composed repertoire of its own.

The experience of the musicians who make up its members can be endorsed by their participation in important orchestras and groups both in Spain and abroad. They are professionals trained at prestigious schools worldwide including, amongst others, Hochschule fur Musik (Weimar), Conservatoire Nationale (Paris), Royal Academy (London), Academia Franz Listz (Budapest) and New England Conservatory (Boston).

At the same time, they all have solid careers dedicated to theoretical research, summarised in important publications, and to teaching in diverse music schools.

MUSICAL CAMPUS

VISTAS AL MAR

As part of our pedagogical initiative, we offer the Summer Musical Campus “Vistas al Mar”, aimed at young string instrumentalists.

The Malagaharmonía team is made up of professionals with wide experience in pedagogical and artistic fields, as well as qualified monitors who will accompany the students 24 hours a day. In excellent facilities, individual and group instrument, chamber music, orchestral and English classes for musicians will be taught, as well as auditions and concerts, all combined with a series of educational and sporting activities.

This Campus is a magnificent opportunity to complement one's musical formation during the holidays, while enjoying the guarantee of an unforgettable summer of music, sun and companionship.
